Smarter case preparation for legal teams

Structure. Analyze. Collaborate.

What

Visiodocs is a collaborative platform that helps legal professionals structure, analyze, and annotate documents for litigation, arbitration, and investigations - streamlining workflows from day one.

Why?

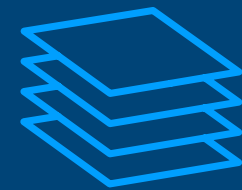

Visiodocs streamlines early case analysis and document review, helping legal teams stay organized and build a solid case narrative well before trial.

Core Benefits

Document Conversion & Structuring

Convert emails (including attachments), Word, Excel, and more into PDF files with drag-and-drop.

Chronological Sorting

Automatically arrange documents and facts in timeline order.

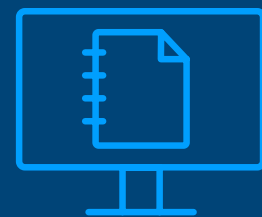

Batch Rename and Number Exhibits

Effortlessly rename and number exhibits before filing in your case management system.

Advanced Search, Annotation & Tagging

Highlight key facts, apply custom tags, and collaborate easily.

Electronic Bundles

Quickly create shareable electronic trial bundles, ready for court or client delivery.

Seamless Collaboration

Work securely with internal and external teams on the same platform.

What Our Clients Say

“Visiodocs is an indispensable tool for gaining an overview of new cases and supports the entire litigation process from start to finish. The new email import feature is highly efficient – I can easily drag multiple emails with attachments into Visiodocs, which automatically converts them to PDF and presents all materials in chronological order. This saves time and ensures a structured case management process”.
